- ✔ All builds can be insulated and lined internally, complete with laminate floor
- ✔ Ground works and electrics can be arranged for a complete package

Garden Sheds

- ✔ Built on a 50×50mm planed framework
- ✔ Cladded with tantalised treated 19×125mm T+G shiplap
- ✔ Floors and roofs are constructed with either 75×50mm and 50×50mm joists *(depending on building size)*
- ✔ Fixed windows are 610×610mm
- ✔ 22mm T&G flooring on all sheds
- ✔ Security hinge bolts & lock (optional extra)
- ✔ Opening window (optional extra)

Garden Sheds

- ✔ Boarded using 19×125mm T+G roof covering using a 20kg green mineral polyester felt
(Other options available)
- ✔ 4mm glass opening windows are also available
- ✔ All sheds come pre-drilled ready for coach bolting together

All of our sheds are build to a heavy duty standard and are individually made to the customers size and requirements. With a large range of sizes starting from the small garden shed to keep a few garden tools , to a large workshop or tractor shed, we can manufacture to your requirements. There is also a wide range of roof coverings if you require something different from the standard roofing felt. Shingle tiles , Onduline roof sheets to the permanent EPDM rubber, we can supply and fit them all.

Cedar Buildings

- ✔ Builds are clad using a western red cedar timber
- ✔ Red cedar has its own unique colouring of pinks and reds which will silver with age when untreated
- ✔ Really popular in the UK for timber cladding
- ✔ Combined with either UPVC or timber doors and windows

Garages, Carports & Workspaces

- ✔ Completely bespoke to each customer
- ✔ Higher specification of timbers are used
- ✔ Tractor sheds to workshops, all aspects can be covered

Garages, Carports & Workspaces
